

**REMARKS**

Claims 1 through 19 are currently pending in the application.

This amendment is in response to the Office Action of January 14, 2004.

**Double Patenting Rejection Based on U.S. Patent 6,594,611**

Claims 1 through 19 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 through 19 of U.S. Patent 6,594,611. In order to avoid further expenses and time delay, Applicant elects to expedite the prosecution of the present application by filing a terminal disclaimer to obviate the double patenting rejection in compliance with 37 C.F.R. §1.321 (b) and (c). Applicant's filing of the terminal disclaimer should not be construed as acquiescence of the Examiner's double patenting or obviousness-type double patenting rejection. Attached is the terminal disclaimer and accompanying fee.

Applicant submits that claims 1 through 19 are clearly allowable over the cited prior art.

Applicant requests the allowance of claims 1 through 19 and the case passed for issue.

Respectfully submitted,
